Portfolio

EDUCATION

Mohan Babu University, Tirupati, India
B.Tech in Artificial Intelligence and Machine Learning

Aug 2022 – Expected Jun 2026

CGPA: 8.94/10.00

Narayana Junior College, Anantapur, India
Class XII (MPC)

June 2021

92.8%

EXPERIENCE

• Cognizant Technology Solutions

Jan 2026 – April 2026

Programmer Analyst Trainee

[Pune]

- Designed and configured **Enterprise Master Data Management (MDM)** workflows including **data modeling**, **match-merge configuration**, and **survivorship rules** to ensure high-integrity **golden record creation**.
- Implemented **REST-based integrations (RIH)** and performed large-scale **data quality analysis** and **deduplication**, maintaining **SLA compliance** and reliable cross-system synchronization.

PROJECTS

• RepoSense AI – GitHub Repository Chatbot

April 2026

Technologies: Python, FastAPI, React, LangChain, FAISS/ChromaDB, OpenAI API, GitHub API

- Developed a full-stack AI application using **FastAPI**, **React**, **LangChain**, and **FAISS** to enable context-aware querying of GitHub repositories via **Retrieval-Augmented Generation (RAG)**.
- Implemented **document ingestion**, **vector embeddings**, and **semantic search** to retrieve relevant code and generate accurate LLM-based responses with source attribution.

• AI Interview Assistant

April 2026

Technologies: Python, Streamlit, LangChain, LangGraph, Groq (Llama 3.1), Speech Recognition

- Developed an AI-powered interview assistant using **Streamlit**, **LangChain**, and **Groq**, implementing an end-to-end pipeline for question generation, speech-to-text processing, answer evaluation, and feedback generation.
- Built a state-driven **workflow using LangGraph**, integrating **speech recognition**, **LLM-based scoring**, and **session management** to simulate real-time interview experiences.

• HERB VISION

March 2026

Technologies: React, Flask, PyTorch, DenseNet121, MobileNetV2, REST APIs, SQLite, JWT/Session Auth

- Built a **full-stack AI application** for medicinal plant recognition using **React and Flask**, integrating deep learning models (DenseNet121, MobileNetV2) for real-time image classification.
- Developed **REST APIs**, **secure authentication**, and optimized model inference with GPU acceleration for scalable, production-ready performance.

SKILLS

- **Languages:** Python, Java, C++ (basic)
- **Web Development:** React, HTML, CSS, JavaScript, Flask, FastAPI, REST APIs
- **AI / ML:** LangChain, LangGraph, RAG, LLM Integration, FAISS, Scikit-learn, Pandas, NumPy
- **Databases:** MySQL, PostgreSQL, SQLite
- **Tools:** Git, GitHub, Streamlit, Jupiter

CERTIFICATES

- Supervised Machine Learning: Classification – **IBM**
- Supervised Machine Learning: Regression – **IBM**
- AI Tools Workshop – **Be10X**

ACHIEVEMENTS

- Ranked in Top 15 percent globally in Zelestra X AWS ML Ascend Challenge (HackerEarth).
- Solved 500+ coding problems on LeetCode, CodeChef, GFG, and HackerRank – strengthening algorithmic and problem-solving ability.
